If you sell commercial insurance: every contractor below needs CGL and most need bonding before they can step on a site — they incorporated days ago and most have not bound coverage yet. The UPGRADE rows are existing operators who just incorporated: their old policy no longer matches the insured entity.

If you do books or tax: every incorporation below now has CRA obligations (corp books, GST registration at \$30k, first T2). The FRANCHISE TURNOVER and EXPANSION rows signal operators with revenue from day one.

CASL-safe outreach notes (ships with every issue): contact fields above are taken only from conspicuously published business pages — each carries a source URL in the subscriber CSV (s.10(9)(b) implied-consent evidence). Your outreach must identify your business and include a working unsubscribe. Rows without contact data are day-0 companies — first-mover advantage; our 30-day re-scan appends contacts as they appear (roadmap).
